In the local space, June headline inflation eased to 5.4% year-on-year from last month's 6.1%. The fifth straight month of decelerating inflation was primarily driven by easing of food and petroleum prices. However, the Bangko Sentral ng Pilipinas (BSP) highlighted potential upside risks emanating from the impact of El Niño and wage increases. While year-to-date inflation is at 7.2%, the BSP sees 2023 inflation averaging at 5.4%, well within the BSP's forecasted range of 5.3% to 6.1%.

The Philippine Stock Exchange Index (PSEi) surged, finishing just a hairline below 6,600. Market sentiment improved due to slowing inflation globally with US Inflation for July at 3%, the lowest in more than 2 years. Meanwhile, Philippine inflation print in June came in at 5.4%, below the 5.5% consensus and prior month's 6.1%. The declining trend of inflation indicates that rising interest rate may soon come to a close. The PSEi rose 1.9% to close at 6,591.47% for July.

The market again exhibited muted trading for the period with Average Daily Turnover at PHP3.46 billion or 26% lower compared to last month's level. **Risk Warning:** Past performance is not indicative of future results. Our investment management services relate to a variety of investments, each of which can fluctuate in value. The value of portfolios we manage may fall as well as rise, and the investor may not get back the full amount originally invested. The investment risks vary between different types of instruments. For example, for investments involving exposure to a currency other than that in which the portfolio is denominated, changes in the rate of exchange may cause the value of investments, and consequently the value of the portfolio, to go up or down. In the case of a higher volatility portfolio the loss on realization or cancellation may be very high (including total loss of investment), as the value of such an investment may fall suddenly and substantially. In making an investment decision, prospective investors must rely on their own examination of the merits and risks involved. **Disclaimer:** Unless otherwise noted, all information contained herein is sourced from BPI AIA\* internal data.
