Market Commentary

The Philippine Stock Exchange Index (PSEi) dropped for the third straight month on another round foreign selling as investors anticipate US President-Elect Donald Trump's resumption to power. This comes with his expected tariffs which reverberated throughout the global economy and forced investors to adopt a risk-off stance. The PSEi fell by 1.3% month-on-month to close at 6,528.79. Despite the monthly decline, the local bourse ended up positive on a year-on-year basis at +1.22%, which bucked the trend of the 4-year decline. The

Average Daily Turnover declined by 8.5% to Php4.83 billion on shortened trading days due to Holiday season. Meanwhile, foreign selling persisted for another month, registering at US\$104 million which has now stretched the full year 2024 net foreign outflow to US\$408 million. Their top sold stocks were ALI (-US\$ 37.4 million), BPI (-US\$20.3 million) and BDO (-US\$14.50 million). Foreign participation recorded at 50%, an even split with locals.

On a per stock basis, the top three index gainers for the month include: NIKL (+17.51%), WLCON (+10.00%) and SCC (+8.72%). Meanwhile, the bottom three performers include: BLOOM (-16.42%), ALI (-8.39%) and MONDE (-7.13%).

Risk Warning: Past performance is not indicative of future results. Our investment management services relate to a variety of investments, each of which can fluctuate in value. The value of portfolios we manage may fall as well as rise, and the investor may not get back the full amount originally invested. The investment risks vary between different types of instruments. For example, for investments involving exposure to a currency other than that in which the portfolio is denominated, changes in the rate of exchange may cause the value of investments, and consequently the value of the portfolio, to go up or down. In the case of a higher volatility portfolio the loss on realization or cancellation may be very high (including total loss of investment), as the value of such an investment may fall suddenly and substantially. In making an investment decision, prospective investors must rely on their own examination of the merits and risks involved. **Disclaimer:** Unless otherwise noted, all information contained herein is sourced from BPI AIA* internal data.
