BPI-Philam Equity Value Fund Market Commentary

The Philippine Stock Exchange Index (PSEi) had a choppy month in November before ultimately settling higher. The local bourse almost fell to a cliff, reaching sub-5,600, following a slew of weak domestic economic data such as dismal 3Q GDP, uninspiring 3Q corporate earnings coupled with heightened political issues. Concerns over Federal Reserve Policy Rates due to prolonged US Government Shutdown likewise dragged investor sentiment. However, the market was lifted by local bargain-hunting towards the latter part of the month. The PSEi rose by 1.56% month-on-month to close at 6,022.24. Trading activity surged in November with Average Daily Turnover registering at Php6.22 billion from Php5.00 billion following some key corporate action events such as the Maynilad (MYNLD) IPO and AREIT Secondary Share Placement. On foreign activity, foreigners turned "Net Buyers" at US\$78 million. On a per stock basis, the top three index gainers for the month include: CNVRG (+22.26%), SMC (+21.77%) and PLUS (+16.95%). Meanwhile, the bottom three performers were: URC (-13.70%), JFC (-12.74%) and SCC (-11.95%).

Risk Warning: Past performance is not indicative of future results. Our investment management services relate to a variety of investments, each of which can fluctuate in value. The value of portfolios we manage may fall as well as rise, and the investor may not get back the full amount originally invested. The investment risks vary between different types of instruments. For example, for investments involving exposure to a currency other than that in which the portfolio is denominated, changes in the rate of exchange may cause the value of investments, and consequently the value of the portfolio, to go up or down. In the case of a higher volatility portfolio the loss on realization or cancellation may be very high (including total loss of investment), as the value of such an investment may fall suddenly and substantially. In making an investment decision, prospective investors must rely on their own examination of the merits and risks involved. **Disclaimer:** Unless otherwise noted, all information contained herein is sourced from BPI AIA* internal data.
